

## Consulting Services

The Barber Enterprise Solutions consulting team is comprised of experienced professionals who average more than 15 years successfully working in the field. Our services can be designed specifically for an organization to meet unique needs and goals. Some of the services commonly provided include:

- Information Technology Assessment – A review of the organization, infrastructure and software applications to make recommendations for your organization
- IT System Evaluation – Assist in assessing and selecting the vendors and applications best suited for your business
- Billing Performance – Improve the system to full outsourcing
- Audit and Compliance Review
- Improve Operational Efficiencies

## Let Us Help You Achieve Your Goals

Whether your goal is to enhance consumer satisfaction, mitigate risk, improve compliance with regulatory requirements or implement operational improvements that impact the ability to bill for services—BES will work with you to reach your objective. All services are developed specifically for the IDD, Autism, and Behavioral Health populations while addressing state requirements.

## About Us

Barber Enterprise Solutions (BES) is a subsidiary of Barber Services Systems, Inc., with corporate offices located in Erie, PA. We work with agencies in the Intellectual and Developmental Disabilities, Behavioral Health, and Autism fields primarily funded by Medicaid and Medicare, offering a range of IT, billing and consulting services. BES has extensive experience in successfully implementing the CareLogic system to maximize all of the benefits of this state-of-the-art software. Services range from Information Technology assessment, billing system improvements to full implementation of Qualifacts' CareLogic EHR and Billing system.

Our team of professionals has a proven track record of analyzing strengths and opportunities and collaborating to create and implement effective solutions. We provide the kind of practical insights that reflect years of hands-on experience and a success-oriented business approach.

Non-profit service providers often face many challenges as they strive to keep pace with technology and a changing regulatory and economic environment.

Barber Enterprise Solutions, Inc. (BES) collaborates with agencies as they work to provide high quality, cost effective services to continue their mission.

BES offers extensive experience and a success-oriented strategy to help agencies achieve their goals.

## Our Services

We will work to improve financial, operational and clinical performance with a range of services that can be customized to meet unique needs. Our services include:

**Information Technology:** With a combined total of more than 30 years in the healthcare information technology industry, the BES team has the skills and experience to provide services specifically designed for your organization, including:

**IT Assessment:** BES can provide a complete review of existing IT assets and recommend a course of action to meet your goals.

**System Implementation:** BES works exclusively with Qualifacts' CareLogic system. CareLogic, a SaaS model Electronic Health Record owned and managed by Qualifacts, is a single, integrated solution platform for managing clinical and financial information across the entire organization. This includes data flows automatically occurring between the electronic client records, billing engine, quality improvement, performance reporting and administrative dashboards.

**Billing Services:** Next to ensuring quality services, there are few things more important than a healthy bottom line. Yet, many non-profits do not collect all revenue due to them in a timely, efficient manner. BES offers a range of options from consulting services to reviewing current practices and work flow to coordinating full back office operations. Services available to improve billing include:

- Claim billing and coding
- Cash posting
- Collections
- Customer service
- Electronic deposits
- Receivables analytics
- Reporting
- Monthly close

**Regulatory Compliance:** Meet audits and reviews with confidence. BES can assist non-profits in redesigning processes in their compliance/auditing program to improve workflow and outcomes. Our experienced team will:

- Provide advice and counsel on creating an audit program that mitigates risk to your organization.
- Assist in creating templates to meet requirements for compliance with a variety of programs.
- Develop a compliance program to include review of data sources and system features to enhance the overall process and support the compliance program on an on-going basis.
- Create an education program that supports the seven key elements of compliance as identified by the Office of the Inspector General (OIG).
